

Breathe New Life into your Leather Upholstery with

RENOVO[®]

*Includes Anti-Bacterial Guard and
UV Inhibitor – the more you use it,
the more effective it is*

Leather Reviver

Cleaning, reviving the colour of black upholstery and proofing it can do a lot to improve the overall look of the interior of a car. Leather that looks old and faded will negatively affect the re-sale value of your vehicle. Whilst, well maintained leather upholstery is a significant plus. **Renovo Leather Reviver** is simple to apply and will give unbelievable results. This new, unique and marvellous

formulation not only cleans and re-colours black leather upholstery; it *protects with advanced anti-bacterial guard, is effective against super-bugs and contains a UV inhibitor.* It infuses your car with a leather fragrance too! Available in 200ml size.

Leather Ultra Proofer

Cleaning and proofing the upholstery can do a lot to improve the overall look of the interior of a car. Leather that looks old and grubby will negatively affect the re-sale value of your vehicle. Whilst, well maintained leather upholstery is a significant plus. **Renovo Leather Ultra Proofer** is very simple to apply. This new, unique and marvellous formulation not only cleans and proofs all colours of leather upholstery; it *protects*

with advanced anti-bacterial guard, is effective against super-bugs and contains a UV inhibitor. It infuses your car with a leather fragrance too! Available in 200ml size.

Interior Ultra Proofer

Cleaning and proofing the interior plastic and wood surfaces can do a lot to improve the overall look of the interior of a car. Dirty, grubby fascias will make a vehicle look old and tired. We look at the dashboard more than any other area of our car's interior so it makes sense then, that we should give it some special attention.

Renovo Interior Ultra Proofer is very simple to apply. This new, unique and marvellous formulation

not only cleans and proofs; it protects with advanced anti-bacterial guard, is effective against super-bugs and contains a UV inhibitor. It infuses your car with a new car fragrance too! Available in 400ml size.
