RENOVO

Soft Top Reviver

Renovo Soft Top Reviver available Black, Dark Blue, Dark Green, Burgundy and Brown is quite literally a new soft top out of a bottle. for only £32.50 or £18.50

This unique and innovative formulation is simple to apply and will give unbelievable results whether the fabric soft top is slightly or severely faded on your nearly new or your classic car.

After reviving the colour why not extend the longevity of the makeover by applying Renovo's waterproofing Ultra Proofer?

RENOVO

Soft Top Canvas Cleaner

Renovo Soft Top Canvas Cleaner is categorically the best product to clean your canvas, double-duck or mohair soft top. for only £12.95

Easy application formula lifts grime and ingrained dirt, especially effective for removing the unsightly green haze caused by the growth of mould and mildew on the fabric of your top.

Use to thoroughly clean and prepare your convertible top prior to application of Renovo's amazing re-colouring elixir Soft Top Reviver.

The Mirror

Quentin Wilson
THE COLUMNIST THE CAR INDUSTRY FEARS

I felt I really has to write to you to say how delighted I am with your hood care products.

I was reluctantly preparing myself for a new canvas hood for my wife's Mercedes 500SL, but after trying your selection of miraculous potions and lotions, the thing now looks brand new.

One afternoon at work has transformed the appearance. The canvas material no longer looks faded, all the water stains have gone and your polish to remove fine scratches from the plastic window means that I now have rearward visibility again.

From a consumer point of view, your hood care system offers substantial savings against the cost of a new hood, is easy to use and does exactly what it says on the tin. If only all motoring products were as genuinely effective.

Well done!

RENOVO®

Ultra Proofer

Renovo Ultra Proofer will cocoon your fabric soft top in its own multi purpose barrier. **all for only £21.50 or £12.95**

This recently improved formula is really easy to apply and will not only re-establish the original 'as new' waterproof weather barrier on your canvas, double-duck or mohair soft top, it now contains UV protection and a mould/mildew growth inhibitor too!

Now that you have your soft top cared for, you will want to rectify the cloudiness that restricts the view out of your plastic rear screen so purchase Renovo Plastic Window Polish.

RENOVO®

Plastic Window Polish

Renovo Plastic Window Polish, it's nothing short of miraculous! Get that rear view back again. **for as little as £9.99 or £15.50**

Everyday wear and tear causes microscopic scratches to form on plastic rear screens which result in loss of transparency and impede all round vision. Use a soft cloth and a little elbow grease in conjunction with Plastic Window Polish and you will be amazed at the results.

HONEST JOHN

Fiddler with the roof

My soft top is looking a little tired and is in need of some tender loving care. What could you recommend?

Your questions answered by the dealer you can trust

Top tips

WE bought a new convertible that has to be left out in all weathers. What can we use to preserve the roof fabric?

P.B. via e-mail

YOU need a product called Renovo (01444 443277, website: www.renovointernational.com).

"The product was used on their rear screen of an msg where window was damaged from rear mounted engine fumes. Results? - Superb!"

(Anthony Jones)

"Just to say that the plastic window polish is excellent, it does exactly what product is for, I also found that it keeps the window cleaned for longer!" Well Done!

(Sam)

"I recently bought a Triumph Stag with a very misty soft top window. Having seen some reviews of your plastic window polish I purchased a bottle. The results are absolutely amazing and the window is now as clear as a if it were new. Reversing into the garage is much safer now!" (Ian Clark)

Fabric Soft Tops

Renovo products are water based in order to be entirely kind to your fabric Soft Top!

Renovo Recommends!

1). Clean your soft top.

Ensure that your soft top is completely clean and free of any previous applications of water-proofer by applying **Renovo Soft Top Canvas Cleaner** according to the instructions on the bottle; then allow to thoroughly dry. As an approximate guide there will be two to four applications in a 500ml bottle; this will depend on how dirty the Soft Top is and how liberally the **Soft Top Canvas Cleaner** is applied.

2). Revive the colour of your Soft Top (Available in Black, Dark Blue, Dark Green or Brown).

When the soft top is dry, apply **Renovo Soft Top Reviver** according to the instructions on the label. **Reviver** should be applied out of direct sunlight. Colour depth will increase according to how many coats are applied. As an approximate guide for an average size convertible top there are two coats in a litre bottle and one coat in a 500ml bottle. It is important to allow each coat to dry completely before applying further **Reviver**.

3). Protect your soft top from the elements.

When the convertible top is completely dry apply **Renovo Ultra Proofer** according to the instructions on the label. **Ultra Proofer** should be applied out of direct sunlight. As an approximate guide for an average size convertible top there are two coats in a litre bottle and one coat in a 500ml bottle. It is important to allow each coat to dry completely before applying further Ultra Proofer. We recommend that you re-apply **Ultra Proofer** at approximately six monthly intervals to maintain optimum protection!

4). Clean and polish your plastic screen.

Apply **Renovo Plastic Window Polish** according to the instructions on the label to restore and maintain the clarity of cloudy screens. As an average guide there will be a few applications in a 50ml bottle and hence several more in the 100ml bottle; this will depend on how opaque the screen is and how liberally the **Plastic Window Polish** is applied.

"This is one of the only products that I have ever bought that does exactly what it says it is going to do. This was excellent! I would definitely recommend it!" Thanks. (Sam)

"I received your goods last week and on Sunday began work on the canvas hood of my 7 year old Audi. The top which began life black was a dirty sludgy dark green. The cleaner worked brilliantly, I couldn't believe the dirt and muck it lifted out of the hood. I then applied the **Reviver** followed by the **Proofer**". My hood now looks brand new. I would highly recommend your products to anybody. (Jeff)

I cannot recommend **Hood Reviver** highly enough as it has transformed the hood to completely 'as new' appearance, and does not come off on your hands! (J. Wilton, VSCC member Canterbury)

Thank you for prompt help and support the roof on my 83 Celica convertible has come up a treat. But the windows are a true amazement, you can actually see thru them. I was quoted \$1600 for a new roof so I'm very happy. (Lee Fabris – Melbourne, Australia)

Another job worth doing for E-Type Day was renovating the double-duck hood with Renovo's new restoration kit..... It's easy to apply and, although it took two coats of dye to cover the faded patches, the result was a vast improvement on the scruffy original. (Classic & Sports Car Magazine, September 2004)

RENOVO®

Vinyl Soft Top Cleaner

Renovo Vinyl Soft Top Cleaner is definitely the most efficient and effective cleaner for vinyl soft top no matter how dirty they are!

This easy application formulation is very reasonably priced and will remove road grime, salt, leaf gum and bird dirt leaving the surface clean and perfectly prepared for an application of Vinyl Ultra Proofer. at £9.99

RENOVO®

Vinyl Ultra Proofer

Renovo Vinyl Ultra Proofer will cocoon your vinyl soft top in its own multi purpose barrier. for only £9.99

This marvellous formulation not only protects and conditions against stains and oxidation; it also contains a UV inhibitor too!

Now that you have your soft top cared for, you will want to rectify the cloudiness that restricts the view out of your plastic rear screen so purchase Renovo Plastic Window Polish.

www.renovointernational.com

Renovo product review for **911&Porsche World magazine** by Peter Morgan motoring writer. Nov 06.

I found it (Renovo Plastic Window Polish) produced results far better than anything I had concocted at home. The result is that now I have a very clear view out again.

The Reviver takes two hours to dry and the result has the appearance of a brand-new roof. Overall the results are excellent.

Vinyl Soft Tops

Renovo products are water based in order to be entirely kind to your vinyl Soft Top!

Renovo Recommends!

1). **Clean your soft top.**

Ensure that your soft top is completely clean and free of any previous applications of water-proofer by applying **Renovo Vinyl Soft Top Cleaner** according to the instructions on the label. The solution can be left to work for several hours or further applications may be used if the top is particularly dirty! As an approximate guide for an average size convertible top there are one to three coats in a 500ml bottle; this will be dependant on the size of the Soft Top, how liberally the product is applied and how dirty the Soft Top is!

2). **Protect your Soft Top from the elements.**

When the soft top is completely dry apply **Renovo Vinyl Ultra Proofer** according to the instructions on the label. Allow the **Vinyl Ultra Proofer** to dry completely before taking the car out in wet weather! As an approximate guide for an average size convertible top there will be one to three coats in a 500ml bottle; this will again be dependent on the size of the Soft Top and how liberally the product is applied. We recommend that you re-apply **Vinyl Ultra Proofer** at approximately three monthly intervals to maintain optimum protection!

3). **Clean and polish your plastic screen.**

Apply **Renovo Plastic Window Polish** at regular intervals to restore and maintain the clarity of cloudy plastic screens. As an average guide there will be a few applications in a 50ml bottle and hence several more in the 100ml bottle; this will depend on how opaque the screen is and how liberally the **Plastic Window Polish** is applied.

*Thank you for ordering
Renovo products;
please do not hesitate
to recommend Renovo
to your friends!*

“Great stuff. My roof looks great now, as for the Plastic Window Polish, I was sceptical but my rear window is now as clear and see-through as new, great product”. (John Jacob)

“Over the weekend I used the three products promptly delivered last week. I am really pleased with the outcome. What was a tired looking, weather beaten nine year old hood has been transformed. Great products. Well done”. (Derek Warren)

Owner 3.8 Series E Type Jaguar;
Having used the Hood Reviver I found it to be an excellent product, that saved me having to buy a new hood! First Class. (Adam Nash)

All I can say is I am amazed at the difference. It looks like a new hood and the material is still pliable. I can't recommend it enough!
(N. Mangan, TVR V8S)

I have had a bottle of your Hood Reviver in my garage for about 12 years, having over-ordered quantities for my Rolls-Royce Phantom II when I changed its hood colour from tan to black.

I've just used this on the tonneau cover of my TR6 and even after all these years the result has been PERFECT! Good Stuff this Hood Reviver. (Anthony)
